Environmental Risk Assessment Form (ERA)

Note: Please review all sections of the ERA to be fully aware of the Environmental Impacts on this Site. Refer to Standard Mitigations at all times.

Water and Soils

ERA Rating		GREEN		Impact Score	
ID	Site Features	Buffer (m)	Site Specific Mitigations		
-	Water Management Monitor water quality on a daily basis. Ensure that silt control measures are in place before works commence .	-	Culvert and pipe crossing required EPA streams to be crossed as part of existing road network .Ensure that all adequate measures are taken in this road upgrade to safeguard water quality. No run off from this activity allowed to enter EPA streams /watercourses. Cease operations if weather conditions deteriorate .
