Subject: RE: sample for DOC testing

Hi Claire,

Unfortunately that won't be possible as they were grab samples taken to represent a particular moment in time during operations, which have ceased now.

Don't worry about it, I'll make a note on our file and make do with the results we have for the other parameters.

Best regards
Ken

Hi Ken,

How are you?

In regard to sample ALT ID 2759421 SW1-DOC our subcontract lab have said they are experiencing issues with their instrument and require more portion for this sample to test for DOC.

Can you please send in another 1 litre of this sample above so we can send it on to our subcontract lab.

Kind regards Claire

Claire Lyness
