A Chara,

I am writing in reference to your submission received on the 1<sup>st</sup> October 2018 with respect to compliance with Condition 6 of Planning Permission Appeal Reference PL27.247745 (PRR 16/363).

The Planning Authority considers that in principle the document accords with the provisions of Condition 6 however, the Environment Section has raised a query with respect to Section 1.4.2 of the submitted CEMP, which indicates that with respect to the Design and Build for the Vartry Water Treatment Plant that the 'Outlet pipe from the new wash water tanks to supply the supernatant to the inlet of the new Water Treatment Plant with an option to supply the existing filter canal system'. They request clarification as to why there is an option to connect the supernatant to the filter canal system and confirmation that this formed part of the application details.

The Planning Authority awaits your response to this matter before confirmation that the CEMP is acceptable and in compliance with Condition 6.

Mise le Meas,

  
Lynn Murphy  
Clerical Officer  
Planning, Development & Environment
