### Site Ownership

Two small plots of approx 0.5 ha are registered to the following

██████████ of Lot 3 and 3A, ██████████.

### Assessment

A site inspection was carried out on 29 July 2023 and 3 Oct 2024:

The following was noted:

Sod peat was harvested in this bog in the summer 2023, however the area of the worked section of bog is approximately 13 acres of the bog. It is understood this work was carried out by Derrymore Peat Ltd on behalf of an unknown third party.

This area falls below the threshold area of 30 ha.

The Bog at Annaghcooleen falls within Natural Heritage Area (Rinn River NHA) and is within 1 Km of Special Protection Area and Special Area of Conservation (Lough Forbes Complex SAC & SPA ).

Due to Bogs proximity to the above listed Special Protection Area and Special Area of Conservation it is considered not exempt due to the area being under the threshold of 30 ha which does not apply without further justification in the form of an Environmental Impact Assessment.

**Recommendation**

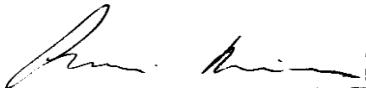

It is recommended a Warning Letter in accordance with section 152 of the Planning & Development Act (as amended) be issued to the Operator, [REDACTED] of Derrymore Peat Ltd, Cloncaufield, Moydow Co Longford.
