**Date:** 13 June 2016 09:48:00

---

Hi PJ

I don't have any record of receipt of receipt of RAMS relating to [REDACTED] Site on Monday last. Could you please check and confirm.

Kind regards

Jim Fanning

**Subject:** Remediation works on [REDACTED] site @ Red Cross

Hi Jim,

Apologies for the late mail but we were due to commence works on the above site tomorrow

I had sent you the RAMS on Monday last, noting if you had any concerns to let me know and we would attend to them asap

I hadn't heard anything back and presumed all was ok but after talking to [REDACTED] just now, I was just looking to double check with you that you were happy for us to proceed based on our RAMS forwarded earlier this week

I was also asked to forward our RAMS for up coming works in Ballinclare Quarry this eve

I have attached the same for your review

If you have any concerns please let me know

Thank you Jim

Regards

---

Thank you Jim,

Glendale is commencing tomorrow morning and then moving on to the larger site in Greystones once complete. [REDACTED] has been fully briefed and will attend site first thing in the morning. Gravity has also prepared a methodology for the preparation works in the lower quarry (Area A as shown on the attached drawing). They hope to commence initial decontamination and preparation later tomorrow (once Ashford is complete). Again all works will be undertaken using reassurance monitoring undertaken by Pierce Keating.

Also I was speaking with IOM about the sample analysis you discussed with me e.g. assessment of fibre release. They can undertake this using a number of ways which as you know may provide a worst case scenario. Did you have anything specific in mind?

Kind Regards

**Subject:** RE: Woods Site

Hi Teri

Thanks for update re the Wood/Greystones site.

Also I can confirm that we have received method statements for both Glendale and Seagreen from EWT and are satisfied for works to commence. Just to note that, as before, we expect that new analyst, [REDACTED] of G&L, will be fully briefed as to his role and will be in position ready to carry out reassurance monitoring from commencement of works. I understand that Glendale is scheduled for Monday with Seagreen to follow, probably starting Wednesday.

Kind regards

Jim Fanning

**Subject:** RE: Woods Site

Great forgot to mention [REDACTED] (Kilsaran Director) was at the Woods site late this afternoon and checked with the Woods Directors based on site and they are satisfied that all areas that could have been exposed to material delivered from the Quarry have been covered.

Assuming the Woods methodology is approved by yourselves for Greystones and Glendale, EWT are due to commence works there on Monday. Reassurance monitoring will be undertaken by [REDACTED] as John is busy elsewhere next week.

Kind Regards

Subject: Re: email 3 and update for monday

All received, thanks [REDACTED]

On 10 Jun 2016, at 18:49, [REDACTED] <[REDACTED]@awnconsulting.com<mailto:[REDACTED]@awnconsulting.com>> wrote:

Hi Jim and Darren,

That's the last of the emails. The status is as follows:

[REDACTED] has been remediated by EWT.

Ashford should complete Monday 13th

Stepaside - on-going

Woods - Glendale and Seagreen will commence on Monday. I understand from EWT that you have approved the methodology?

Litchfield - Method statement to be completed Searoad - Method statement approved but waiting on customer agreement [REDACTED] - Method statement to be completed Kilcoole New Road Method statement to be completed

RE the Quarry

A temporary bagging area has been set up while the lower (final depository) is being organised. We expect this to be ready early next week. Work within the main quarry area is only being undertaken by trained asbestos operatives ( Gravity). We will prepare a method statement hopefully for Monday.

Again thank you for all your help in this. Have a good weekend.

Kind Regards

Hi Jim

Good to meet you – method attached – there are a few final edits and formatting items to sort, but nothing significant in the content.

I will keep you informed of progress.

Best regards

Dear [redacted]

Thanks for passing on your contact details to me at yesterday's CIRIA seminar in Belfast. As I mentioned to you, I would appreciate if you could make available to me the latest draft of the Blue Book. I understand that it is not yet finalised, being still in draft form and that its release is strictly controlled.

Kind regards

Jim Fanning
