

Walkover Survey Form

BAU: 5	Property: [REDACTED]	HU: [REDACTED]
Surveyor: [REDACTED]	Survey Date: 17/08/23	Target Species: Hen harrier
Start & End Time: 8.00 – 9.45		
Weather Conditions: Bright, calm, dry		
Main Habitats Surveyed: CHF		

Species Name	Species Code	Count	Breeding Evidence	Notes / Location:
Dunnock	D.	2	S	
Goldcrest	GC	5+	H	
Great tit	GT	1	P	Scrub adjacent to HU
Wren	WR	3+	H	
Robin	R.	3+	FL	
Blue tit	BT	1	S	
Mistle Thrush	MT	5-10	H	Flock in nearby agricultural land
Other records of interest (plants, mammals, inverts, etc.) Deer present.				
Summary of Main Findings: Partly in HH Red Zone possible nesting habitat adjacent but would consider context sub-optimal – surrounded mostly by forestry and farmland, not open heather moorland				
Recommended Next Steps: Further survey time				
Survey Limitations: Need more survey time to confirm HH absence
