

Walkover Survey Form

BAU: 5	Property: [REDACTED]	HU: [REDACTED]
Surveyor: [REDACTED]	Survey Date: 25/08/23	Target Species: Hen harrier
Start & End Time: 8:00 – 9:45		
Weather Conditions: Dry, light breeze, overcast at times with sunny spells		
Main Habitats Surveyed: CHF & adjacent heath & grassland		

Species Name	Species Code	Count	Breeding Evidence	Notes / Location:
Raven	RN	1	F	
Wren	WR	5+	S	
Robin	R.	3	S	
Blue tit	BT	4+	FL	Several individuals, including juvenile observed in scrub along path adjacent HU
Swallow	SL	3+	F	
Meadow pipit	MP	4	S	Open habitat adjacent forest
Goldcrest	GC	5+	S	
Buzzard	BZ	1	F	Over nearby agricultural grassland
House martin	HM	5-10	F	
Great tit	GT	1	S	Mainly in scrub along path adjacent HU
Coal tit	CT	3	S	Mainly in scrub along path adjacent HU
Tree creeper	TC	1	S	
Other records of interest (plants, mammals, inverts, etc.)				
<p>Summary of Main Findings:</p> <p>No Hen harrier observed, but potential habitat adjacent HU.</p>				
<p>Recommended Next Steps:</p> <p>Implement timing mitigation or further breeding surveying required.</p>				
<p>Survey Limitations:</p> <p>Not enough survey time to confirm presence/absence of Hen harrier.</p>
