Re: Compliance with conditions attached to Section 4 discharge licence reference WPL11; Garden Village, grant dated 11th December 1991

Dear Jonathan,

We refer to your letter dated 15th December 2023 and addressed to Christopher Weinmann in connection with the Garden Village STP.

As you are aware the operation of this plant is contracted by our client to Turbine Ltd and is managed by Mr Brendan Fay, who I understand is in touch with you from time to time in respect of this plant.

Following receipt of your letter, I have asked Brendan to consolidate all of the results for 2023 and forward them to you directly. He has undertaken to have this completed this week.

At this time, I would like to point out that this plant is now over 30 years old and was designed to meet the then required standards. These standards fall far short of today's standards, and an aging plant does not help.

WCC are in the process of decommissioning this plant and replacing it with a new Pumping Station and outfall to the network sewer system. This project was commenced in 2020 and was planned to be complete by now. I would ask all concerned to expedite its completion as this will be the ultimate solution to ensuring a workable & environmentally safe solution for the Graden Village complex and future development on these lands.

Regards

Ken McAvoy
